WE ARE assured by the Oldest Iniabitant in a communication to an Eastern paper, not one person in a hundred knows what the Indian Summer is. According to this Oldest Juhabitenr, a cold rain generally sets in in this latitude after the leaves have all dallen from the trees. After rain a bitter frost follows, fermenting and decomposing the fullen vegetation. Great heat is generated by this decomposition, which adds warmth to the earth, causing that warm musty atmosphere which generally prevaile in November It is during this seeson that the Indians were wont to lay in their corn for the winter and the old settlers thus fixed the name of "Indian summer" upon it There is not much poetry in this explanation, but it doesn't at all effect the dousartness of the souson. Ayer's Hair Vigor, For restoring to Gray Hair its

natural Vitality and Color. A · dressing which is at healthy, and offectual far preserving the hair. *It' soon* restores fuded

or gray hair to its original

, color, with tha gloss; and freshness of youth. Thin hair is thickened, falling hair checked, and baldness often, though not always, oured by its use. Nothing can restore the hair where the follicles are destroyed, or the glands atrophied and decayed; but such as remain can be saved by this application, and stimulated into activity, so that a new growth of hair is produced. Instead of fouling the hair with a pasty sedi-ment, it will keep it clean and vigorous. Its opensional use will prevent the hair from turning gray or failing off, and consequently prevent baldness. The restoration of vitality it gives to the scalp arrests and prevents the formation of dandruff, which is often so uncleanly and offensive. Free from those deleterious substances which make some preparations dangerous and injurious to the hair, the Vigor can only benefit but not harm it. If wanted merely for a HAIR DRESSING, nothing else can be found so desirable. Containing norther oil nor dye, it does not soil white cambric, and yet lasts long on the hair, giving it a rich, glossy

lustre, and a grateful perfume. Prepared by Dr. J. C. Ayer & Co., Practical and Applytical Chemists, LOWELL, MASS.
